RESIDENTIAL CONVEYANCING: PURCHASES

The Solicitors Regulation Authority, the body which regulates law firms, requires us to provide you with information on our costs in relation to certain legal services which we provide. This is so that you have the information you need to make an informed choice of legal service provider, and an understanding as to what the total cost of that service may be.

One such legal service is the sale, purchase and mortgage of residential property.

The fees which we charge for residential conveyancing depend on a wide variety of factors including but not limited to whether the transaction is a sale or purchase, where the property is, and whether it is a flat or a house.

We have provided information on the potential costs for sales and purchases and listed the factors which may cause those costs to increase. However, fees will vary from property to property and can on occasion be significantly more than the ranges given. We can give you an accurate figure once we have specific information about the property including having sight of the relevant documentation.

This page details our pricing structure for property purchases.

The legal fees you will pay for a property purchase is based on the price of the property, the location of the property and any specific circumstances.

Our fees cover all the work required to complete the purchase of your new property, including dealing with registration at HM Land Registry and dealing with the payment of the Stamp Duty Land Tax (or Land Transaction Tax if the property is in Wales).

Table 1 below shows the range of fees we can charge for a property of a particular price. For a specific quote, please contact us. The specific circumstances are show in table 2 and disbursements in table 3.

Such charge is usually either £10 plus VAT (£12) or £12 plus VAT (£14.40) depending on the portal provider that the lender uses. We will provide you with details of the fee payable, if any, in our client care letter that we will send to you at the beginning of the transaction.

*There will be additional disbursements payable where a property is leasehold. These will be set out in the specific lease relating to the property. These disbursements are usually payable to the Freeholder or Management Company (or both). We will advise you on the actual disbursements once we have had sight of the lease and any Management Company and/or Freeholder's information pack.

Ground rent and service charge are also likely to be payable throughout your ownership of a leasehold property. Again, we will confirm the amounts upon sight of the lease.

****Local Authority Searches:** The price of a local authority search is set by the relevant local authority. Fees can range from £75 - £200 plus VAT and we can give you a specific cost once we know which local authority the property falls within.

*****Drainage Search:** The price of a drainage search is set by the relevant service provider. Fees range from £40 - £100 plus VAT and we can give you a specific cost once we know which provider services the property.

Our fees assume that:

- This is a standard transaction and that no unforeseen matters will arise including for example (but not limited to) a defect in title which requires remedying prior to completion or the preparation of additional documents ancillary to the main transaction, a first registration of a title, or a purchase of part.
- The transaction is concluded in a timely manner and no unreasonable complications arise.
- All parties in the transaction are cooperative and there is no unreasonable delay from third parties providing documentation.
- No indemnity policies are required. Additional disbursements may be required if an indemnity policy is required.
- That the transaction is in the name of an individual only and not a company. If you are purchasing in the name of a company, please call our office for a quotation.
- That the transaction is not tied, connected to or related to any commercial transaction. If this is the case, please call our office for a bespoke quotation.
